

ADDENDUM TO THE MARCH 11, 2014 BOARD MEETING MINUTES

At the March 11, 2014 Board Meeting, Severn expressed a high level of frustration with the new website hosting person, Ryan Welsh with Southeast Computer Repair, LLC, who bought the company from Lisa Frederick sometime in 2013. Welsh was very difficult to reach and was not prompt at all in getting updates made to the website. Jack Hopper, at the last Board Meeting, suggested to Severn to contact Bill Prudhomme, with XL Technologies to see if he could help. Bill made several attempts to reach Welsh to no avail and Severn was anxious to get someone he could work with to take over the hosting and web-mastering of the site. Also, at the last Board Meeting John R. Kavanaugh suggested to get another website address and to start all over. Upon John's request Severn provided the 'Situation with the Website' to the entire Board on March 22, 2014, asked for a motion and a second and finally, a vote on getting a new website address and completely redoing the site with Bill Prudhomme doing the work **(see Exhibit 1)**. Through email Jack Hopper moved, seconded by Wanda Tiblier, to ask Bill Prudhomme to redo the entire website. Board Members, Julie Broussard, Wes Gauthier and Marianne Joye voted, yes, by email and John R. Kavanaugh and Curt Bowman voted, yes by phone by April 3, 2014. Motion passed on April 3, 2014 and by April 4, 2014 Bill Prudhomme began working on the new website.
